- The reading date
- The new reading

## Government's support package for businesses

The Energy Bill Relief Scheme (EBRS) and the Energy Bills Discount Scheme (EBDS) provide businesses that meet the Government's criteria with financial support for their energy costs.

Only those customers eligible for support will see discounts automatically applied to their energy usage under the "Government support package" section on this invoice.

Visit our dedicated support page about changes to the energy market that may affect your business at [www.opusenergy.com/energy-crisis-support](http://www.opusenergy.com/energy-crisis-support).

## Site details

Site number	1169396			
Site reference	Cosmetic Couture Aesthetic Training			
Supply number	S	03	801	274
	16	10018944	594	

## Contract details

Your existing contract has a variable rate. These rates can change at any time. You'll continue on this until you either set up a new contract with us or switch to a new supplier. You can usually get a better deal with a new contract. Get in touch with us for a quote on [01604 673221]. If you want to change supplier, you don't need to send us a termination notice. Please pay any outstanding balance before you switch, or we may object.

<b>Total Discount</b>		<b>£-18.41</b>

**Total fuel mix of all the electricity that Opus Energy Limited supplied during the 12 months ending 31 March 2022**

<b>Electricity supplied has been sourced from the following fuels:</b>	<b>Electricity supplied by Opus Energy Limited</b>	<b>Average for all UK Suppliers</b>
Renewable	58%	38.7%
Natural gas (CCGT)	32%	38.5%
Coal	4%	3.8%
Nuclear	3%	16.1%
Other	3%	2.9%
Total	100%	100%
<b>Environmental Impact</b>		
CO <sub>2</sub> emissions	183g per kWh	198g per kWh
Radioactive waste	0.00021 per kWh	0.00113 per kWh

Please note, Opus Energy supplies 100% renewable energy to customers on agreed contracts (unless specified). We offer 100% renewable power as standard on new contracts too.

The percentage of conventional power within our fuel mix is due to:

- Transmission and distribution losses (a small reduction in the voltage transmitted across the network from power generators to those consuming power)
- The supply to customers with legacy contracts that didn't specify renewable power.
